The Goebel Law is the most fitting monument that Goebel could have.

The Nesbit Law is expected to do for Missouri what the Goebel Law has done for Kentucky. If it does, then Missouri should be made the terminal point for considerable sympathy.

In 1895 there were 13,588 miles of street railway track in the United States. In 1898 there were 17,291 miles. This is another indication of our recent progress and prosperity.

It is but natural for the Democratic party to oppose the building up of the American marine. It will be recalled that the Democratic party claimed that American tinplate was an impossibility.

The Democrats of the District of Columbia want the Hon. WILLIAM SULZER for Vice-President. The Democrats of the District of Columbia are not the least bit extravagant in their wants.

Does anybody know of a piece of general legislation proposed or promoted by Mr. BRYAN? The gentleman from Nebraska served in Congress for two terms and put in his entire time talking for publication.

The Republican "clean sweep" in the Mississippi Valley do not indicate a revolt because the Republicans in Congress have not adopted Free-trade with Porto Rico to suit the Democrats and establish a dangerous precedent.

The learned Detectives have now found an entirely new man who killed GOEBEL—"one whose name has never been mentioned." If Republicans and that \$100,000 holds out, the Jail capacity at Frankfort will have to be increased.

NEW JERSEY'S bank depositors increased in number from 137,897 in 1894 to 177,730 in 1899, a gain of almost 30%. The amount of deposits increased from \$84,256,208 in 1894 to \$48,852,873 last year, a gain of more than 40%. McKinley Prosperity has been a pretty good thing for New Jersey.

The House Committee on Merchant Marine and Fisheries has filed an exhaustive and valuable report in favor of the pending Shipping Bill. Its prompt passage will increase the demand for iron, steel and many other American manufactures, besides making us as independent in the delivery of our goods as we are supreme in making them.

The United States is now the world's greatest producer and exporter of meats, which form one of the most important features of our export trade. In 1887 the total exportation of provisions and live animals was \$102,771,910, and in 1899 their total was \$297,105,637, having thus doubled money in time, and forming in 1899 17.25% of the total exports of that year. And all this under a Protective Tariff.

The Republicans of Lewis in their county Convention heartily endorsed the course of State Senator WILLIAM H. COX in the trying times at Frankfort last winter. The resolution entire follows:

"We approve and endorse the acts of our State Senator and Representative in the late General Assembly of Kentucky, HON. WILLIAM H. COX and HON. JAMES COOPER, and we commend them and their constituents and especially of their fellow-Republicans in this Legislative and Senatorial District."

When the Hon. JOSEPH WELDON BAILEY, the former leader of the Democracy, first arrived in Congress he insisted upon the Sergeant-at-Arms deducting from his salary for those days upon which he was absent. Now, this Democratic statesman who makes a specialty of the Constitution and glories in being better than his colleagues, can go off on a campaigning tour for a seat in the Senate and draw his Congressional salary without doing his conscience the least bit of violence. The Hon. JOSEPH WELDON BAILEY as a reformer is sadly lacking in staying powers.

THE REASONS WHY

You Should Buy Your

CLOTHING AND MEN'S FURNISHING GOODS

"From J. Wesley Lee are he has everything that's new and always the very best that money can buy, and his prices are just a little lower than any who sell the same class of goods. Come in and see the nicest stock of merchandise, the handsomest store room and the best lighted one in the state. Respectfully,

J. WESLEY LEE,

N. E. Cor. Second and Market Streets, Dodson's Building, MAYSVILLE, KY.

DEMOCRATIC millionaires are forming a Trust to buy at least one newspaper in every Republican and doubtful state. The time to be played on these moneyed organs of the latest Democratic Trust will be set to "free silver" music.

"The conditions" now remind me of the conditions in 1862 more than any other time I have ever seen."—Senator J. K. Jones, Chairman of the Democratic National Committee.

Senator JONES is correct. There has never been such prosperity in the United States since 1892 as in 1899-1900. It would be a mistake to make any change now, as was done then. Wage-earners do not want four years of enforced idleness again.

Piles are not only most painful, but also very dangerous, as the inflamed nodules are very apt to make an abscess, and the danger of the return is increased. They should be cured. FARR'S Pile Ointment will cure the most stubborn case. Price, 25 cents. In bottles, Tubes, 75 cents. J. J. Wood & Co.,

NEWS IN KENTUCKY.

LIEUTENANT GIBSON WON.

Remarkably Fast Time Made in the Twenty-Sixth Kentucky Derby at Louisville.

Louisville, Ky., May 4.—Lieutenant Gibson won the 26th Kentucky Derby in 2:05 1/4, taking three-quarters of a second off the track record for one mile and a quarter. The race itself was in some respects a disappointment. The sensational work in the Irish of the various candidates within the past week had given rise to the belief that the rawhide and steel would be pitted vigorously during the last eighth of the journey in the big event. The promised dash failed to materialize but for one reason—Lieutenant Gibson was so far superior to his field that they could not make a race of it.

The Derby was the fourth event on the card, and when the entries were finally posted it was found that Orontius and Bendish had been scratched, leaving seven of the best colts in the west to contend for the honor. Kentucky Farmer, Lieutenant Gibson, His Excellency, Highland Land, Florio, Thrive and Hindus came out on the track in the order named, and each was in time cheered as he paraded in front of the stand.

Starter Chino had but little trouble in getting them away, all closely bunched. Before the first quarter was reached Lieutenant Gibson had taken the lead and maintained it to the finish, passing under the wire winner by two lengths of daylight without having been touched. Florio was second, half a length in front of Thrive, who was a length in front of Highland Land, while His Excellency, Kentucky Farmer and Hindus were strung out in the order named. There were 20,000 spectators present.

FOREST FIRES.

A Vast Amount of Valuable Timber is Being Destroyed in the Mountain Districts.

Lexington, Ky., May 4.—Fire is destroying thousands of dollars' worth of property throughout the mountains of Eastern Kentucky. At Chimney Top, a point near Natural Bridge, in Wolfe county, the Clay City Lumber Co. has lost several hundred logs and many hundred cross-ties during the past week, and the flames are still raging.

On the Red River & Beattyville Southern railroad, the Lexington & Eastern Railroad Co. has some 20,000 cross-ties, about 700 of which have been burned, and there is still danger of further ravages.

No Desire to Enter the Race. Richmond, Ky., May 4.—Ex-Gov. James B. McCreary, of this city, who since the death of Senator Goebel has received scores upon scores of letters and appeals from democrats all over the state to make the race for governor, this fall, is quoted by the Richmond Clinch, his home organ, as saying that he has no desire whatever to again occupy the executive chair at Frankfort, and it is his opinion that he will yield to these overtures and enter the contest.

Knocked Out in the Fifth Round. Louisville, Ky., May 4.—Eddie Conroy, of Chicago, was knocked out in the fifth round by Oscar Gardner before the Nonpareil Athletic club in the presence of a crowd that packed the Madison Hotel. Conroy was on his hands and knees, and the referee, George Miller, of Chicago, refereed the fight.

Passive Resistant. Owensboro, Ky., May 4.—John W. Jernigan, who escaped from the Greenville jail with two others last August, where he was held on a charge of criminal assault on his 15-year-old daughter, was captured in this place. He remarked that if they would hold him here for 21 hours he would say his way out of jail.

Yankee Society Man Antiques. Louisville, Ky., May 4.—Joseph W. Morey, a prominent young man and athlete, of this city, and for several years cashier for a large local wholesale hardware firm, committed suicide by shooting himself through the breast and turning on four legs at his home. The motive for the suicide is unknown.

Shot Himself Twice. Louisville, Ky., May 4.—Joseph W. Morey, assistant cashier of W. B. Beckinsley & Co., was found in his residence with two bullet holes above his heart. He can not recover. Investigation shows that he was short in his accounts. Two years ago he married Miss Ruby, a society belle.

Robbers Car Nitroglycerine. Lewisburg, Ky., May 4.—Robbers broke into the L. & N. depot and P. L. Marshall's store, blowing open the safe in each place with nitroglycerine. They secured 75 cents in pennies in one place and about \$2.50 in old and worn coins in the other.

Residence Burned. Cynthia, Ky., May 4.—The residence of Frank McKee, five miles east of here, was totally destroyed by a fire of unknown origin. Loss, \$3,000, insurance, \$1,000.

WILL LAST A YEAR

Lawyers Predict That the Suspect Trials Will Remain in Court a Long Time.

THE FIRST WILL BE TRIED IN JULY.

A Special Term of Court Will Be Called in Scott County on the Second Monday of That Month.

William H. Catton's Testimony Not as Sensational as It Was the First Day—Several Other Witnesses Were Examined.

Frankfort, Ky., May 4.—The second day of the hearing in the application for bail for Wm. H. Catton, the defendant who gave such startling testimony the first day, ended with the case unfinished. Catton resumed the witness box and continued on the stand till nearly noon. He was on the stand a little over five hours in all.

In the afternoon Judge Cantrill announced that, as the counsel had failed to agree as to a date for the trials of Powers, Young, Wattaker, Davis and Combs, valued to Scott county, he would call a special term of the court in that county, to begin the second Monday of July. Both sides had stated that they would get ready for trial at the term which begins next Monday. They also could get an agreement as to what they should go on trial first, the commonwealth declining to elect at this term. Judge Cantrill said that on the first day of the special term, the witnesses would be called and assigned on hearing, but that it will doubtless be impossible to finish up more than one or two of them during the term. The hearing, however, was told, in the opinion of the witnesses, will string out during the greater part of the next two months.

The most important testimony brought out in the afternoon was that of two of the physicians who assisted in the autopsy on the body of Senator Goebel. Dr. T. R. Welch of Jessamine county, a state senator, who was also one of Goebel's physicians, conducted the autopsy, and was asked by Mr. E. E. Hays, who is now in the state house, exhibited a map showing the yard and buildings, trees and other things on it, and of the streets adjacent to it. The witness was out of a hackery tree near where Mr. Goebel fell, and which is the one supposed to have passed through his body, was produced in court. It has been in the custody of the prosecuting attorney, looked up in a bank vault since the day it was found. The doctor said that the map made by the witness was for the purpose of showing that the shot was fired from the office of the secretary of state, this being the delusion made from it.

It is understood that the Beckhams, who have been in the charge of the jail and court house, for a little over a month, will vacate next week, probably as early as Monday. The prisoners whose cases have been referred for trial will probably be taken to Georgetown next week, and the authorities say there will be no necessity for troops after that.

ORGANIZATION PROSPEROUS.

Second Annual Convention of the National Hardwood Lumber Association.

Cincinnati, O., May 4.—The second annual convention of the National Hardwood Lumber Association convened here with about 200 members present, including representatives of different states and other organizations, which have been holding auxiliary meetings here the past two days. The reports of the president, secretary, treasurer, directors and committees showed the organization to be very prosperous and the past year to have been an exceptionally good one.

The following officers were elected for the ensuing year: President, W. A. Bennett, Cincinnati; vice president, F. B. Smith, St. Louis; H. B. Russe, Memphis; and W. B. White, Boyne City, Mich.; secretary, Allen R. Vineland, Chicago; treasurer, George E. O'Hara, Cincinnati. One officer was elected from each of the member states as selected.

Deaths of Soldiers in Cuba.

Washington, May 4.—The following death report was received at the war department from Gen. Wood, Havana: "Sancti Spiritus, San Luis, Wm. Kelly, formerly quartermaster, employed, sent alcoholism; Harson, Olin Arnold, private hospital corps, septemia; Puerto Principe, Packer A. Staley, at El Rincon, when on scout duty, supposed blood poisoning, the result of landing a boat on his neck."

Catholics Will Not Parade.

St. Louis, May 4.—The Irish-American Catholic parade unit has decided not to take part in the Devery parade on Saturday, as it is not invited. The intention was to have had 4,000 men in line, but this has been abandoned. No reason is given for this action.

St. Louis, May 4.—The firing of cannon, the shrieking of whistles and the buzz of a vast concourse of enthusiastic people, Miss Devery became the guest of the city of St. Louis.

COFFINS SCARCE.

Impossible to Properly Bury the Dead Victims of the Mine Disaster in Utah.

CREMATION MAY BE RESORTED TO.

Many of the Bodies Are Rapidly Decomposing, Adding to the Horror of the Situation.

It is Now Thought That the Number of Dead Will Not Exceed 250—Relief Work Is Being Kept Up Night and Day.

Salt Lake, Utah, May 4.—The latest dispatch from Schofield says that the extreme estimate of dead are now conceded to have been too large, and that it is unusually important to place the loss of life at 200, as there were not that many men in the mines. The probabilities are that 250 will be about the total number of dead.

The body of Tom Brodgon, of North Lawrence, O., was recovered. There are not enough coffins in the camp to bury the dead, and to add horror to the situation, the bodies are rapidly decomposing, and it has been suggested that cremation may have to be resorted to. There is no provision for which no provision for burial has been made.

A joint committee of Odd Fellows and Knights of Pythias spent the day among the dead, identifying members of their orders. They found about 20 of each order among the dead. While the committee was at this city, which will be sent to Schofield, Superintendent Wells having placed in special cars at the disposal of the ladies for their purpose.

Subscriptions for the relief of the sufferers are coming in from all over the state, and the total now amounts to \$25,000. The special committee appointed by Mayor Thompson to receive subscriptions for the relief fund and organized by electing the following officers: President, J. E. Dooley; treasurer, A. L. Thomas; secretary, William Lighheart. While the committee was in session A. L. Thomas read a dispatch from Hon. Henry Phillips, of Pittsburgh, in which he expressed deep sorrow for the terrible disaster, and was asking that his name be put down for \$100. M. J. Gronstrom & Co., of San Francisco, have also contributed \$100.

NEWSPAPERS PROTEST.

Congress Will Be Asked to Inquire into the Present High Prices of Blank Paper.

Washington, May 4.—Representatives of the American Publishers' association presented a memorial to the senate finance committee asking that some relief be afforded on account of the higher price of paper. The delegation said the association represented 25,000 papers. No particular legislation was advocated.

The delegation was received by Senator Allison, acting chairman, in the senate finance committee. The resolution recited that the price of printing paper used by newspapers has increased from 60 to 100 per cent, with the result that the cost of news has increased to the point where it is no longer profitable to publish. The association appealed to congress to inquire into the conditions complained of, to the end that suitable legislation might be provided to remedy these conditions. An amendment was added that the resolution be so amended as to include the cost of news.

Hawaiian Officers Selected.

Washington, May 4.—A number of nominations for important places in Hawaii will be made soon, possibly before the close of the present week. President Dole has been definitely decided upon as the new governor, and Morris L. Estes, of California, as judge of the United States district court for the district embracing all the Hawaiian islands. Mr. Roy, of Illinois, has been selected for marshal of the islands. Several other names are under favorable consideration for other offices.

Tombston Sink.

John A. Graves sank in 19 feet of water off Moon's Landing. Fireman Fred Johnson, of Paducah, Ky., and two Negro women could not be rescued. Engineer Finley rescued his wife by swimming with her to a lifeboat, but both died from an upper deck.

Bald Headed to Test a Law.

New York, May 4.—Inspector Thompson raided the Broadway Athletic club, and Manager George Condit and two pugilists, Kid Thomas and Fred Johnson, were arrested. The charge is conducting a boxing contest without a license. A test case will be made.

Iowa for Bryan.

Des Moines, May 4.—The Iowa Democratic convention selected as delegates-at-large to the Kansas City convention Cato Sells, Charles A. Walsh, John B. Murphy and George Baker. They were instructed for Bryan.

MOVING SLOWLY.

British Forces Are Making Some Advancement in the Thaba N'Chu District.

FIFTY THOUSAND MEN ARE OPERATING.

The Advancing Lines Cover a Frontage of Forty Miles in a Very Rugged Country.

The Boers Are in Sufficient Force to Compel the British to Proceed With Caution—No News From Kimberley.

London, May 4.—Gen. Broadwood's cavalry brigade has reached Isidelffontein, 28 miles north of Thaba N'Chu; Gen. Buller's division is at Isidelffontein, 15 miles north of Thaba N'Chu; Gen. Tucker's division is moving toward from Karse siding; the division of French and Gen. Buller are in and near Thaba N'Chu. These Lord Roberts has 50,000 men operating clear of the railway along a frontage of 40 miles. He is advancing slowly with some success, but nothing decisive. Yet at all points of concentration the Boers appear in force efficient enough to compel the British to proceed with caution. Their wide front in a rugged country makes turning movements almost difficult.

Brandfort has been captured by the British by a combined movement of Col. Tucker's and Gen. Buller's divisions on the east and center and Gen. Buller's mounted infantry on the west. The British surprised the Boers, who retreated hastily. Four thousand of the enemy had moved here in order to oppose our advance. Col. Tucker's artillery had a sharp duel with the enemy's guns and put two of them out of action.

The Boers, Winston Churchill says, have enormous herds of cattle and flocks of sheep grazing in the south-east. These they are driving northward. Observers at headquarters in Bloemfontein seem to think that the Boers are preparing to evacuate Brandfort and Laagersburg.

The Boers still holding the Thaba N'Chu district are estimated at 4,000. They have among their guns a 40-pounder. The correspondent, writing from Bloemfontein, says that at 11:55 p. m. said the British hoped to cut off the whole command.

The correspondents at Kimberley say that the British are making for several days, the delusion being that a forward movement is under way there. The Boers in Natal are restless. Two hundred crossed Sunday's river Wednesday and tried to engage the British outposts.

FREE HOME BILL PASSED.

A Measure Which Has Been Pending in Congress for Years Finally Disposed of.

Washington, May 4.—The house without division passed the "free home" bill which has been pending before congress for a number of years. The bill provides that the government shall issue patents to actual bona fide settlers on agricultural lands of less than 800 acres, and that the payment of the purchase price to the Indians and changes the existing law relative to agricultural lands, which is to insure the payment of the endowments, which heretofore have come out of the sale of public lands in case of deficiency. These payments are \$2,000,000 annually. Of the 29,000,000 acres in Indian reservations opened to settlement for which the government is to pay or has paid \$10,000,000, about 8,000,000 acres have been taken and about 2,000,000 are supposed to be still available for agricultural purposes.

A remarkable thing in connection with the passage of the bill was a speech in its favor by Galsusha A. Grox, of Pennsylvania, the venerable ex-speaker of the house, who 48 years ago fathered and passed the original homestead bill. He was then the youngest and is now the oldest member of the house.

The remainder of the day was devoted to the sundry civil appropriation bill, the last but one of the great supply bills.

Capt. Geo. Ritchey Dead.

Leavenworth, Kan., May 4.—Capt. George Ritchey died at the soldiers' home at Leavenworth. He was born in Pennsylvania, was 38 years old and served through the civil war at the head of the 16th Ohio volunteers. He was formerly receiver of the land office at Leavenworth, Kan., and later postmaster at Leavenworth. Capt. Ritchey was the son of Congressman Thomas Ritchey, who named Gen. Philip Sheridan's son to West Point.

POST OFFICE APPROPRIATION.

The Senate Committee Restores the Amount Intended for the Pneumatic Tube Service.

Washington, May 4.—The senate committee on post offices and post roads completed the post office appropriation bill and Chairman Wolcott will report it to the senate. The net increase in the bill is about \$1,000,000, which includes the restoration of the provision for the pneumatic tube service first reported by the house committee. It provides \$225,000 for construction, \$100,000 for maintenance, and adds \$500,000 for extension of the service to other cities in addition to those where it has been in use.

The following amendment has been made to the provision relating to letter carriers: "Provided, that letter carriers may be required to work as soon as practically only eight hours on each working day, but not in any event exceeding 48 hours during the six working days of each week; and that the number of hours on Sunday, not exceeding eight, as may be required by the needs of the service; and if a legal holiday shall occur on any working day, the period of service shall be sold day. If less than eight hours, shall be counted as eight hours without regard to the time actually employed on the floor."

The vote in the committee on the pneumatic tube item was 7 to 3. Chairman Wolcott told the committee that when the provision was reached in the senate some members favoring the pneumatic tube service could take charge of the bill, as he would oppose it on the floor.

SPRINGDALE vs. LIMESTONE.

A Redhot Discussion on a Subject of National Importance.

A large crowd was out to hear the joint discussion between the Springdale and the Limestone debating clubs last Friday night. "Whether or Not the Porto Rican Tariff Bill is Just" was the theme for oratorical contention. When the time had arrived there were to be seen two sets of men arrayed against each other for battle.

The Goliath of the Fifth and the Demosmoines of our own little city, the Cleoro and Webster, representatives of that picturesque village bordering on the Tiber, as it were, formed the line of battle.
Mr. Bally, the Goliath of the Fifth, opened fire. His fusillade was fast, furious and effective. He spoke of Porto Rico being a new bride just entering Uncle Sam's family, and that he (Uncle Sam) ought to set her up to housekeeping, providing a set of chairs, dishes, etc., so that she may scatter her rice upon our tables, and instead have scattered a tariff upon her rice. How time has changed the name of things! Porto Rico without representation ten years ago was tyrannical; today we call it justice. When we undertake to impose and enforce the present tariff bill, and name the Boston tea party that is to rule and govern the Porto Ricans, then in that event we establish a government without the consent of the governed. He closed McKinley, but not his policy. Applause, and a lamp chimney went sweeping across the floor.

Mr. Cobb, the Cleoro, opened with a distinct and distinct oratorical of the trans-Atlantic, followed in pursuit, fortifying his defenses for further attack. He struck the match and cast into the waters figures of speech that were called great chunks of caloric, redhot jumping counters, brass-headed snapping turtles, diamond-back rattlesnakes, but from the following proceeding that the grand old stream (Ohio) still remains in proof and will continue to roll on and mingle with the salt sea as she did in the days of Ptolemy. He defeated the so-called Boston tea party because of the vast ignorance in the island, and that 800 of its people could neither read nor write, and therefore it needed the United States as a protectorate; and in defense of the 15% tariff he said it would be less burdensome than a direct tax and would not deprive all the empty Treasury of the island. Applause, with a noise of hoarseness ascending from the Northwest corner, probably some one suffering from chronic dehydrated-concatenation.

Mr. Slattery, the Demosmoines, then took the floor 'mid wild applause. In the day of Ptolemy, the constitutionality of the bill, he argued that Porto Rico is either a part or not a part of the United States, and if so then it comes under the jurisdiction of our Constitution, and wherever it goes the flag must necessarily follow—that emblem of God-given rights which guarantees justice and equal rights to all and special privileges to none. Then upon that basis we are violating our pledge when we impose and enforce the present bill. A Republic cannot stand when divided against itself.

Mr. Deegan then followed with liberty existing from every pore and freedom inherent in all special privileges to none. Then upon that basis we are violating our pledge when we impose and enforce the present bill. A Republic cannot stand when divided against itself.

Cured a Running Sore.

"I had a bad running sore on my breast for over a year," says Henry R. K. Richard, "and I tried a great many remedies, but I got no better until I used Foley's Kidney Cure. I was perfectly cured in ten days, and I feel much better than I have for years. I will never be without it in the house." J. Jas. Wood & Son and Armstrong & Co.

The Flemingsburg Times-Democrat is celebrating, this week coming out in a new and up-to-date dress, and greatly improved in appearance.

At the Sunday-school convention held at Dover, W. F. Munzing was elected President, J. S. Wilson Vice-President and Miss Willie Fulton Secretary of that Magisterial District.

Humefford, owner of Augusta's stove foundry, will move a washing-machine factory from Cincinnati to Augusta, if the people of that place put up a bonus of \$5,000 and lots for the buildings.

Drs. Garr and Aikin of Flemingsburg, assisted by Dr. H. K. Adamson of this city and Dr. Cook of Helena, a few days ago amputated the leg of Thomas Martin of near Lewisburg. The amputation was necessary by disease of the knee joint and ankle bone.

COUNTY COURT DAY.

A Big Attendance is Looked For Here on Next Monday.

Monday next is County Court and Stock Sale Day in Mayville.

The market for horses has been so lively as at present. The steady advance of prices has gone on until today you can get fancy figures for saddle, coach and heavy animals. The prevailing market today stimulates stock raisers to produce the grade for which Kentucky breeds are famous and the more fact that Eastern and foreign buyers come to us plainly tells the world that the Kentucky leads and as Mayville is the center of Kentucky we've been the monopolists in the horse business. We invite the public to come to Mayville and witness the animation created by the resumption of stock sales.

Don't forget it's Bargain day among the merchants.

RAILWAY MATTERS.

HOMESEEKERS' EXCURSIONS TO THE WEST AND SOUTHWEST.

May 15th and June 15th and 19th the Missouri Pacific Railway and Iron Mountain Route will have on sale at St. Louis round trip homeseeers' excursion tickets to points in Missouri, Kansas, Nebraska, Colorado, (Denver, Pueblo and Colorado Springs included), Utah, Idaho, Montana, Nevada, Washington, Arkansas, Louisiana, Texas, Arizona, Oklahoma, Indian Territory and New Mexico, at rate of one fare plus 25% tickets to hear final return limit of twenty-one days from date of sale, with privilege of stopovers at certain points on the going trip, allowing fifteen days to reach destination. Rates, time cards, descriptive pamphlet and full particulars on application, A. A. Gallagher, D. P. A., 2nd Vint street, Cincinnati, O.

HARD TO COMBAT.

The Evidence of the Senses—A Man Mayville People say so. People say so. People say so.

When we see it ourselves, When our own ears hear it, When our neighbors tell it, Our friends endorse it, No better evidence can be had.

It's not what people say in Maine, Or distant mutterings in California. No deceiving echoes here.

Mayville people talk about Mayville people.

Public opinion published for the public good.

There is no proof like home proof. Read this statement made by a citizen:

Mr. Elmer Bridges of 228 West Third street says: I learned of the great merit of Doan's Kidney Pills over a year ago while in Pittsburgh. I had been one of two broken down by symptoms of kidney trouble. I have told my friends the remarkable value of this preparation and advised them to get it at J. Jas. Wood & Son's drugstore, corner of West Second and Market streets, and give it a trial.

For sale by all dealers; price 50 cents a box. FOSTER-McLELLAN CO., Buffalo, N. Y.
